Arranged by
Student in cooperation with IAESTE

Estimated Cost of Living including Lodging
700 EUR / Month

Working Environment: Office work

Working Hours / Week: 40.0

The student will participate in construction projects utilizing advanced software tools such as SCIA Engineer, Tekla Structures, IDEA Statica, Tower, Revit, and others, focusing on structural sizing and analysis (including reinforced concrete, steel, and wooden structures) and generating relevant calculations. They will be responsible for modeling and creating plans (formwork, reinforcement, steel) and preparing detailed specifications. The role involves working in an interdisciplinary environment and collaborating closely with project teams, requiring strong technical skills, good communication skills, and the ability to work effectively in a team. A background in design work is also desirable.

ADDITIONAL INFORMATION

Deadline for Nomination - 01-Feb-2025
