ALTERSIS Performance is a leading IT performance consulting firm specializing in performance engineering and application performance management (APM) across the EMEA (Europe, Middle East, and Africa) region. The company helps organizations optimize IT systems, improve operational efficiency, and ensure system reliability.

The intern will be involved in the setup and configuration of performance monitoring tools, assisting in the integration of DevOps pipelines to automate and monitor deployment processes. The role includes analyzing the performance of IT systems, identifying bottlenecks, and implementing APM (Application Performance Management) solutions. Additionally, the intern will support the development of monitoring architectures to ensure optimal system performance, scalability, and reliability.

ADDITIONAL INFORMATION

A computer is required and the company won't provide it.
Lodging costs 150 TND per month, with a one-time deposit of 70 TND and an upfront utility fee of 30 TND.

Deadline for Nomination - 15-Mar-2025
