0

Payment Method
Cash

Arranged by
Trainee with assistance of LC Aragón

Estimated Cost of Living including Lodging
800 EUR / Month

Working Environment: Office work

Working Hours / Week: 30.0

EID has been working in industrial building, hydraulic and road infrastructures since 1987.

In general, the works are carried out with their own personnel and means and, in addition, constant relationships are maintained over time with a large group of professionals, both from the private sector (cartography, geotechnical, environmental, archeology, security and health, etc.) as well as from the public sector, especially from the University of Zaragoza, to carry out specific tasks. EID's collaboration with highly specialized engineering companies is also common (eg TILKE GmbH in speed circuits, AF-INCEPAL in paper industries, etc.).

The student will collaborate in drafting projects or on-site management, performing simple tasks based on their training. The work schedule is to be determined by mutual agreement.

ADDITIONAL INFORMATION

Deadline for Nomination - 15-Mar-2025
