An-Najah Innovation Park in collaboration with Cystack is offering an exciting remote internship program in Cybersecurity and Web Application Security, designed for individuals eager to deepen their knowledge and develop practical skills in this critical and rapidly evolving field.

This 300-hour internship program provides participants with comprehensive training in core cybersecurity concepts and web application security. The program combines theoretical knowledge with practical, hands-on experience to equip participants with the tools and skills necessary to address real-world cyber threats.
